Positioning Statement

Every physiological system and process relies on adequate nutrition in order to function properly and support a healthy lifestyle. Vitamins and minerals are especially important for proper body function. The body can synthesize a few vitamins; however, essential minerals and most vitamins must be obtained in adequate quantities from outside sources.

We've developed this unique formula to help supply the vitamins and minerals your body needs. Adult Multivitamin has been specially formulated to help meet your body's daily requirements for many critical fat- and water-soluble vitamins, as well as macro- and trace minerals.

With a diverse blend of essential nutrients, Adult Multivitamin supports the various body systems including the circulatory and immune system, and also supports body stamina and feelings of well-being.*

Directions/Usage

Take one (1) tablet twice daily, in the morning and evening.
