

MÖDERE® FACT SHEET

CARB BLOCKER

Health & Wellness | Support

Product Description

Moderate Carb Blocker is a smartly designed supplement formulated with white kidney bean extract and hibiscus. It helps mitigate the effects of starchy carbohydrates by reducing their glycemic and caloric impact.*

Product Benefits

- White kidney bean helps reduce the digestion and absorption of dietary starches*
- White kidney bean reduces the caloric impact of starchy foods*
- Helps lower the glycemic index of carbohydrate-rich foods*
- Supports weight loss or weight management goals in a regimen that includes a reduced-calorie diet and exercise*

Positioning Statement

Our bodies and brains need carbohydrates for energy production and to keep us running and thinking smoothly. However, too much of a good thing can be a problem.

Moderate Carb Blocker contains white kidney bean extract, which has been shown to inhibit the enzyme alpha-amylase. Alpha-amylase is associated with the digestion of starches, and by inhibiting this enzyme, Carb Blocker helps reduce the conversion of starches into sugars to mitigate the effects of carbohydrates on your body. Combined with a reduced-calorie diet and exercise program, Carb Blocker helps you achieve your weight management goals.*

Directions/Usage

Take 3 capsules once a day, 5 minutes prior to your most carbohydrate-rich meal.

Key Ingredients

- White kidney bean extract
- Hibiscus flower extract
