Positioning Statement

Legend has it that ancient Ethiopian mystics were the first humans to discover the joys of coffee back in the 11th century. A millennium later, Modere Logiq ushers in a new generation of this once-exotic elixir by combining the natural benefits of the finest coffee beans with our own remarkable TetraBlend™.

We didn't sacrifice any of the premium coffee experience you love; we just made it better. Our proprietary formula of ancient and modern nootropic ingredients combines bacopa monnieri, natural caffeine from green tea and coffee, L-theanine and coffee fruit extract to elevate this breakfast staple with tangible benefits for your mood, focus, memory and brain aging.* Together with Liquid BioCell®, these key ingredients make Logiq a truly functional supplement that is easy to enjoy anywhere, at any time.

When combined with Modere Logiq Creamer, each stick pack of Logiq provides a serving of Liquid BioCell. Follow up with your favorite Liquid BioCell or Trim product every evening for the full joint and skin benefits of Collagen/HA Matrix® Technology.**†
